## RADIO PRESS RELEASE

The Minister of State, Minister of Higher Education, Chancellor of Academic Orders, has the honour to inform the University Community that, following the validation of harmonized training programs in the field of pharmacy and its three specialties, namely: industrial pharmacy, clinical pharmacy, and hospital pharmacy, which are prerequisites for any high-quality training that meets international standards, the results of the entrance examination for the pharmacy specialization cycle are now available.

The start of the academic year is set for Wednesday, February 18, 2026, at 8:00 a.m. prompt. The late start of classes will be made up thanks to the flexibility of the BMD system.
